

Step-by-Step Guide to Completing a transaction in SOLOS application.

This is the step-by-step user guide for the user to know how to do a transaction in the SOLOS Application.

- 1 Navigate to uat.vitaara.in

- 2 Login to the SOLOS application.

- 3 Go to "Load Plan" module and Click "Invoice"

- 4** In the "Invoice" section, you can see all the invoices which are uploaded to the system. You can select the invoice by clicking the corresponding checkbox of the invoices. Note: You can select multiple invoices of the same customer (Dealer) if needed.

The screenshot shows the LASTMILE software interface. At the top, there's a header with the logo 'LASTMILE' and the tagline 'Anchor leg of supply chain'. To the right of the logo, there's a notification bell icon with a green dot and the text 'WH008 - ESSVEE INDUSTRIES PVT. LTD (PUNE) rahul.varma+LM'. Below the header, there's a navigation menu with options like HOME, LOGATTA, LOAD PLAN, SFX, FREIGHTPRO, EVENTTRACK, ASSETTRACK, INVOEASE, DIGICLAIM, and OM AUTOMATION. The main content area is titled 'LOAD PLAN' with a question mark icon. It has tabs for PO, SO, Invoice (which is selected and highlighted in red), and RPO. Below the tabs are search and date range filters. The results section shows one record: 'JB00000007' with REF NO. 'INV0021', SCHEDULED DATE '13-Jul-2023', CONSIGNEE 'MAHASAGAR SALES CORPORATION', SHIP TO 'MAHASAGAR SALES CORPORATION', and DESTINATION 'MUMBAI'. The checkbox next to the job number is highlighted with an orange circle. At the bottom left, there are 'Settings' and 'Sign Out' buttons. The footer says '© 2023 Powered by SELLOGS'.

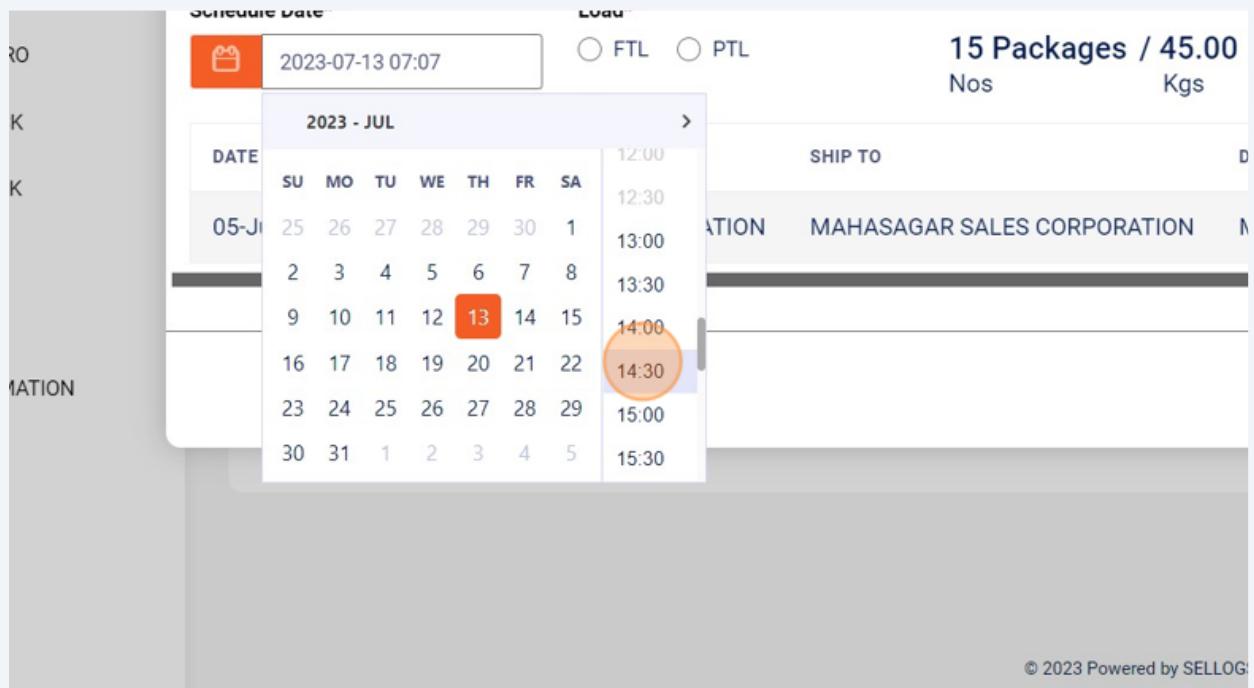

- 5** Click "Preview"

The screenshot shows a modal or overlay window. At the top, there's a 'Created Date Range' section with 'From date' and 'To date' input fields, a 'Search' button, and a 'Clear' button. Below this is a table with columns: DATE, CONSIGNEE, SHIP TO, DESTINATION, and VALUE. There is one row of data: 'MAHASAGAR SALES CORPORATION' under CONSIGNEE, 'MAHASAGAR SALES CORPORATION' under SHIP TO, 'MUMBAI' under DESTINATION, and '1568.15' under VALUE. At the bottom right of the modal, there are 'Preview' and 'Cancel' buttons, with the 'Preview' button highlighted with an orange circle. The footer of the modal says '© 2023 Powered by SELLOGS'.

6

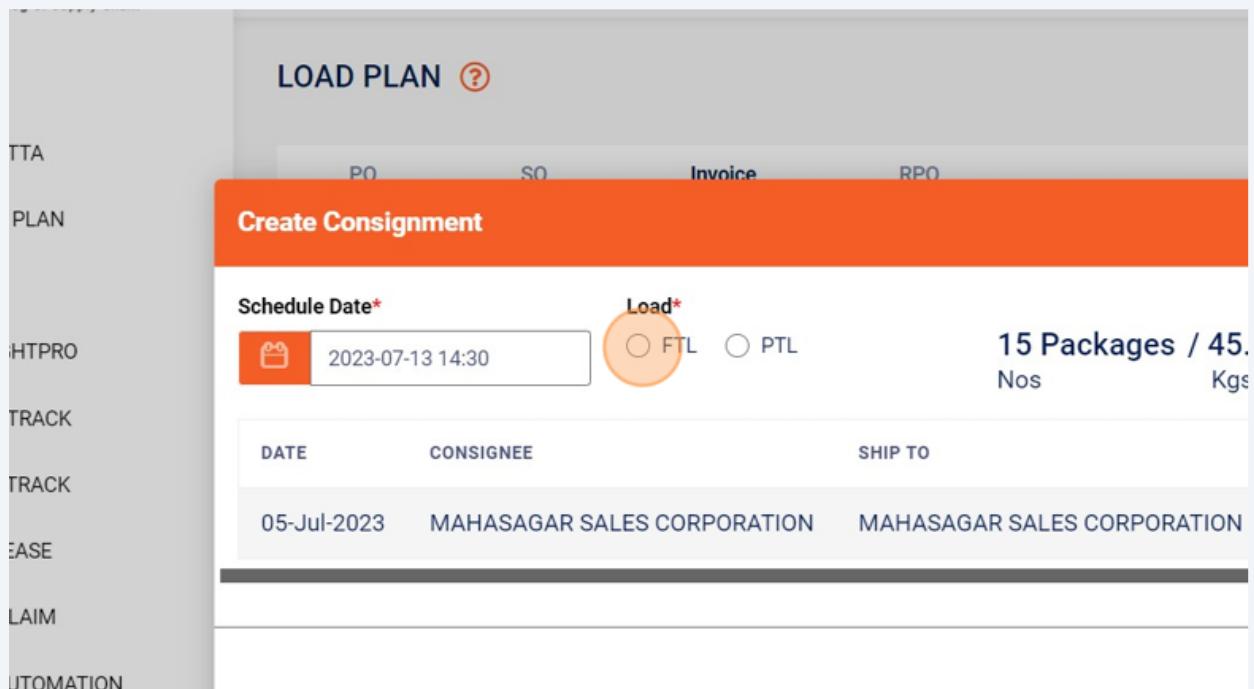

A window will be open named " Create Consignment". Click on the "Schedule Date" section to record the expected dispatch date and time.

Note: Schedule date and Invoice date are different.

7

If you want to create FTL consignement click "FTL". Similarly , Click "PTL" for the PTL consignments.

- 8 The system will suggest vehicle type (Tonnage of the vehicle) that can be used to carry the Load.

10

Once you clicked on the "Save" button in the "Create Consignment" window, a new consignment has been created based on the invoices. You will be redirected automatically to the "Freight Pro" module. In "FreightPro>>Outbound>>Pending" section, you can see your consignments.

It has two sections, on the left side, you can see the consignments with three black dots. Each black dot represents the three stages of transactions. Such as "Material Dispatch", "Consignment in transit" and "Consignment Delivery" respectively. On the right side, you can see the milestones that have to be completed in each stage. The first stage starts with assigning a vendor (transporter) to the consignment. Click on the "+ Vendor" to see the transporter list.

The screenshot shows the Freight Pro Outbound Pending section. On the left, there is a table with three rows of consignment details:

DOC / MODE / TYPE	ROUTE	STATUS
INV/ FTL #CN00000013	URULI DEVACHI, PUNE → MUMBAI, MUMBAI INV0021	● ● ●
INV/ FTL #CN00000008	URULI DEVACHI, PUNE → MUMBAI, MUMBAI INV0019	✓ ● ●
INV/ FTL #CN00000007	URULI DEVACHI, PUNE → MUMBAI, MUMBAI INV0015	● ● ●

On the right, there is a detailed view of the first consignment:

CON. NO.: CN00000013 **DATE: 13-JUL-2023 12:55**
CONSIGNMENT: 15 UNITS / 45 KG **MODE: FTL**

11

You can see the transporter name who provides the rate card (As per the contract)for the consignment. Select the transporter name and click on "Save" button.

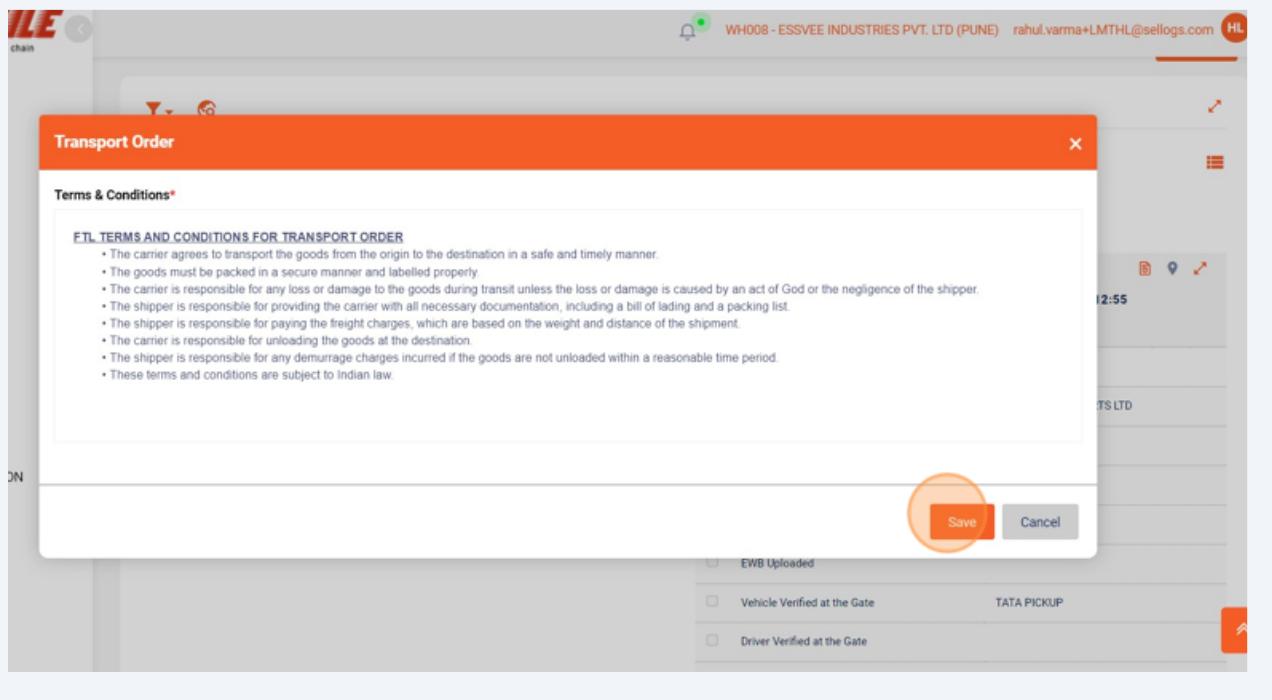

12

Click on the "+Transport Order" section to generate the "Transport Order" for the transporter.

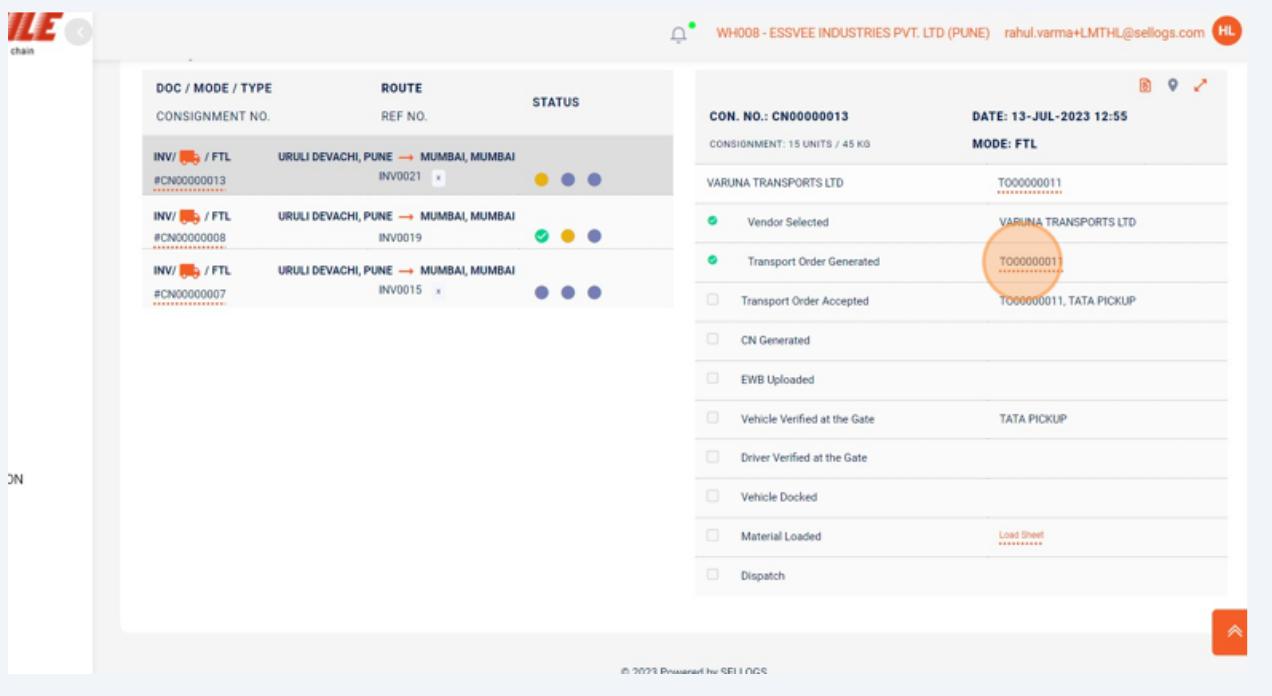

13

You can see the terms and conditions as per the contract to create the transport order. Click "Save"

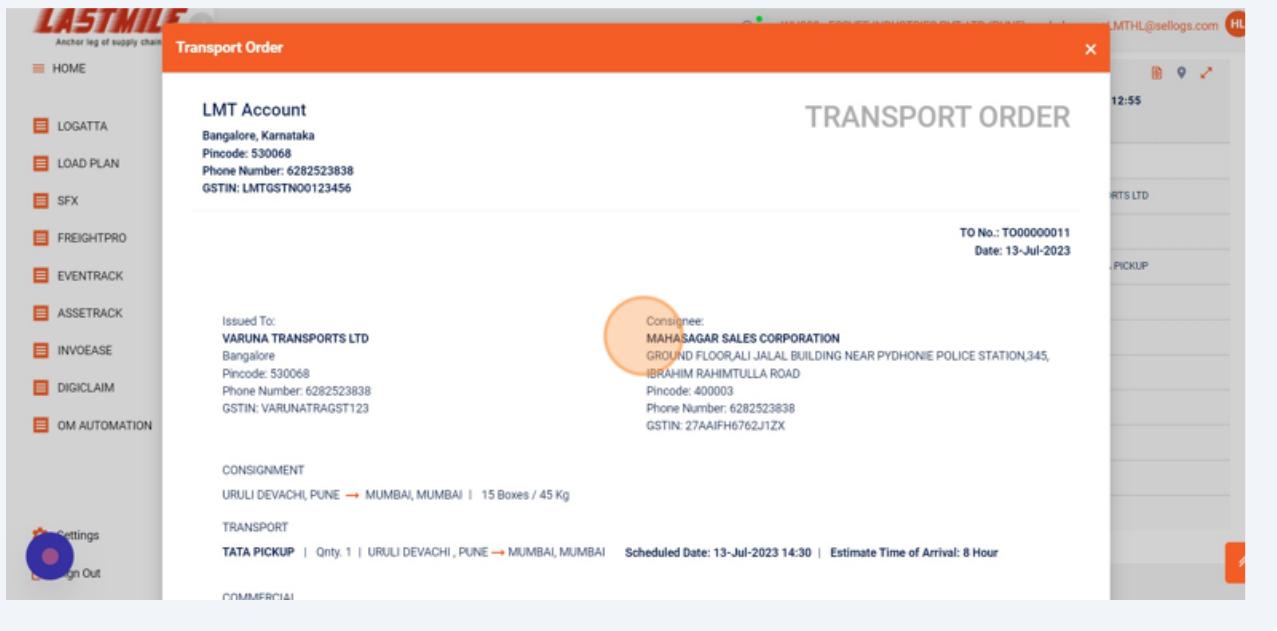

14

Click "Transport Order number" to see the detailed Transport Order.

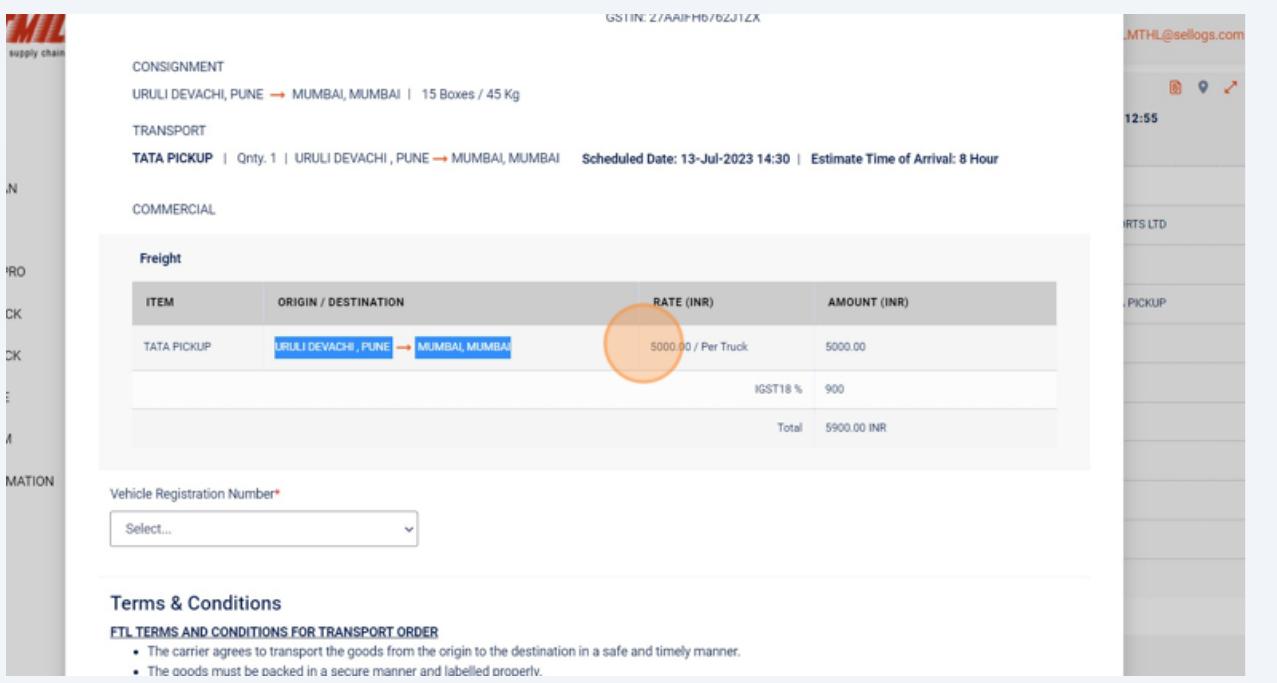

15

Transport Order (TO) is a system generated document that giving a transportation order to the transporter along with details like, destination address, origin, destination, transportation charges as per the contract.

16

You can see the Rate as per the contract and the system will calculate the total rate as well. Note: The transporter also has the login to the system. When you give the transport order, the transporter can see the transport order and understand the consignment details.

17

He can assign the vehicle as per the consignment by selecting the vehicle registration number from the drop-down list in the left corner.

		<input type="checkbox"/> Vehicle Verified at the Gate	☒ MH01AB1234, TATA PICKUP Driver is not allocated.

24 Click this dropdown.

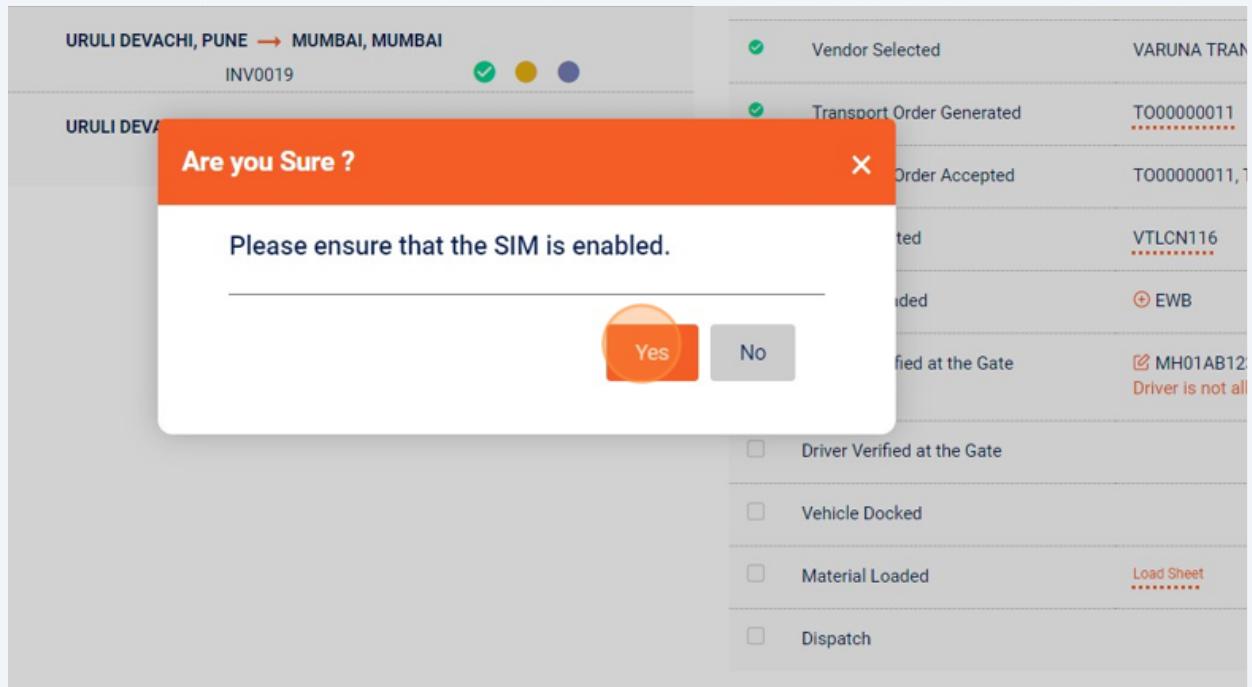

The screenshot shows a software interface for managing consignments. At the top, there is a header with a bell icon, the reference number WH008 - ESSVEE INDUSTRIES PVT. LTD (PUNE), an email address rahul.varma+LMTHL@sellogs.com, and a red 'HL' button. Below the header, there is a status bar with tabs labeled 'STATUS', 'CON. NO.: CN00000013', 'DATE: 13-JUL-2023 12:55', 'MODE: FTL', and 'Select...'. The 'Select...' button is highlighted with an orange circle. On the left, there is a vertical list of items labeled 'MBAI' with corresponding status icons. The main area displays a table of consignment details:

VARUNA TRANSPORTS LTD	T000000011	VTLCN116
<input checked="" type="checkbox"/> Vendor Selected	VARUNA TRANSPORTS LTD	
<input checked="" type="checkbox"/> Transport Order Generated	T000000011	
<input checked="" type="checkbox"/> Transport Order Accepted	T000000011, TATA PICKUP, MH01AB1234	
<input checked="" type="checkbox"/> CN Generated	VTLCN116	
<input checked="" type="checkbox"/> EWB Uploaded	EWB	
<input type="checkbox"/> Vehicle Verified at the Gate	MH01AB1234, TATA PICKUP	

25

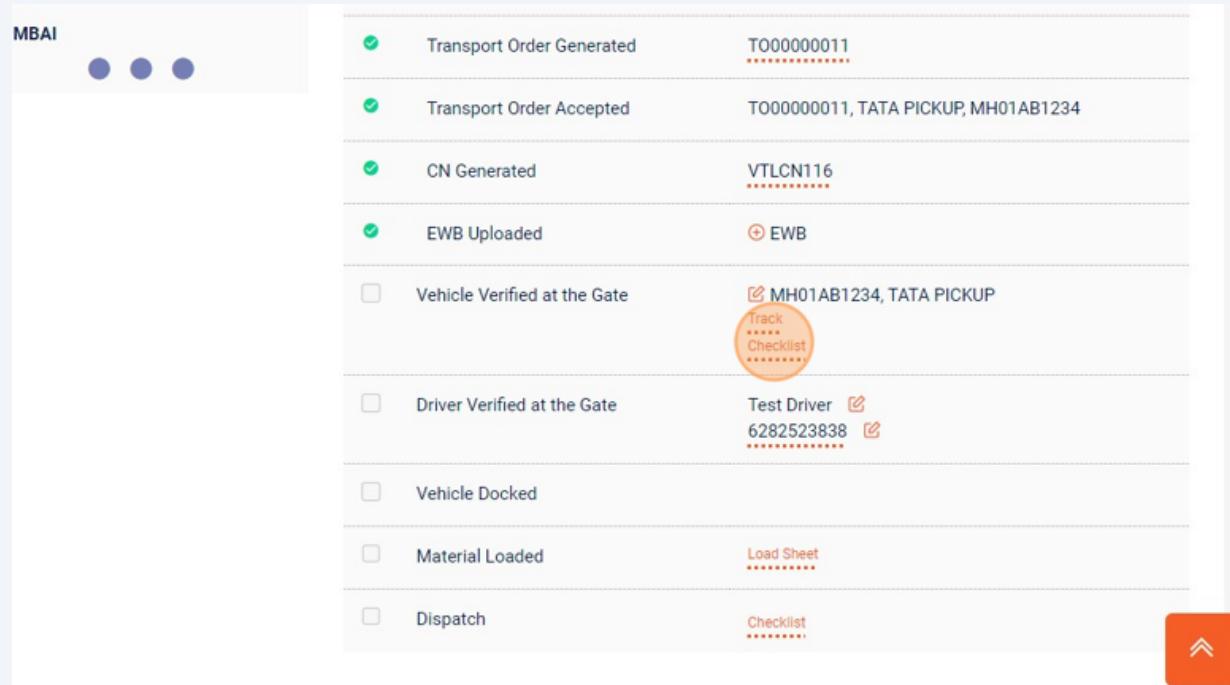

When the driver's name is selected from the dropdown list, the system will show the following message. Click "Yes". It will send a message to the driver's phone number asking permission to track their number till the trip ends. The driver has to reply with "YES" or "Y" or give miscall to a number based on the network they are using (Airtel, Idea-Vodafone, Jio, etc).

Note: Getting permission from the driver to track their number during trip time is a one-time process. Once the driver gives their permission (or you can help the driver to reply to that message), it is valid for 180 days (6 months). The system will not ask for permission for the next 6 months.

26

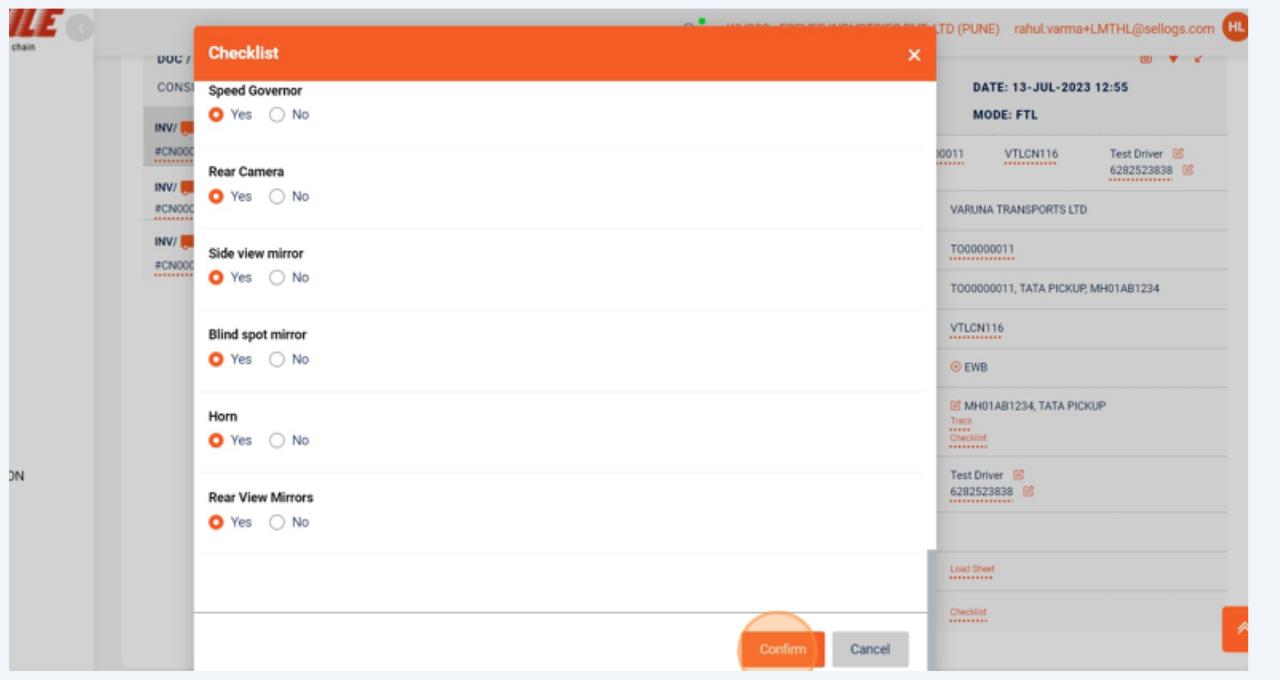

Click "Checklist" on the "Vehicle Verified at the Gate" milestone when the vehicle reached the security entrance of your warehouse.

27

The vehicle checklist will help you to make sure whether the same vehicle assigned by the transporter comes to pick up your consignment and the vehicle is in good condition. Click "Confirm" to complete this milestone.

Note: Some companies may have these vehicle-checking standards. If you are not bothered about it, you can check the register number alone to make sure the vehicle reported at the gate and in the TO are the same. Click "Confirm" button to complete this milestone.

28 Similarly for driver verification as well.

44

The customer (Dealer) can see the SKU code, and total boxes ordered and if any box/package is missing or damaged, they can enter the count in respected columns.

The screenshot shows the 'Report Damages' section of the app. On the left sidebar, there are several menu items: HOME, LOGATTA, LOAD PLAN, SFX, FREIGHTPRO, EVENTTRACK, ASSETTRACK, INVOEASE, DIGICLAIM, OM AUTOMATION, Settings, and Sign Out. The main area has a header with a bell icon and the text 'WH008 - ESSVEE INDUSTRIES PVT. LTD (PUNE) rahul.varma+LMTHL@sellogs.com'. Below the header, there's a table with four columns: 'SKU Code' (SV-001-102), 'Total Boxes' (15, circled in orange), 'Number of Damaged Packages*' (0), and 'Number of loss / Shortage' (0). Underneath the table is a section titled 'Report Damages' with a sub-section 'Nature of Loss/Damage Report'. At the bottom is an 'Attachments' section with a cloud upload icon and the placeholder 'Drag and drop a file here or click'.

45

The customer (Dealer) can upload any images eg, the signed copy of LR or pictures of damaged packages etc by clicking the "Attachments" section. It will open the camera of the dealer's mobile to take pictures. Click the "Save" button will upload the images and generate e-POD by the customer.

This screenshot shows the same 'Report Damages' form as the previous one, but with a different focus. The 'Attachments' section is highlighted with an orange circle. At the bottom right of the screen, there are two buttons: 'Save' (orange) and 'Cancel' (grey). The footer of the app includes the text '© 2023 Powered by SELLOGS' and a small logo.

46

The system will consider a transaction to be completed when an EPOD is received. Once the ePOD is generated, the system will move the consignment from the "Pending" to the "Completed" section.

The screenshot shows a software interface for managing logistics transactions. On the left, a sidebar lists various modules: LOGATTA, LOAD PLAN, SFX, FREIGHTPRO, EVENTTRACK, ASSETTRACK, INVOEASE, DIGICLAIM, and OM AUTOMATION. The main area is titled 'Road' and includes tabs for Air, Sea, and Multimodal. Below these are buttons for Inbound and Outbound. The status 'Pending' is circled in orange. The table displays two records:

DOC / MODE / TYPE	ROUTE	STATUS
CONSIGNMENT NO.	REF NO.	
INV/ / FTL #CN00000008	URULI DEVACHI, PUNE → MUMBAI, MUMBAI	INV0019

Below the table are three circular status indicators: green, yellow, and blue.
